

The Sustainment Training Center (STC) offers a Hydraulic and Fuel System Maintenance Training Course focusing on hydraulic and fuel system theory, components, controls and basic engine construction. Core fundamental teaching points are types of fuel systems, valve lash adjustment, hydraulic operations, hydraulic schematics and troubleshooting.

The training is NOT MOS producing or Additional Skill Identifier (ASI) awarding.

This course is in the ATRRS School Reservation System under School Code 952, Course Title: 964-WHEEL HYDRAULIC/FUEL.

Technicians/Soldiers attending the instruction will attend this training in a paid status. Cost to the States for sending Technicians/Soldiers include travel to and from Camp Dodge from the Technicians/Soldiers home station. Food subsistence is local economy. Lodging is available on Camp Dodge for \$43.00 per night for single room, queen size bed and shared latrine.
